

NALCAP TIMELINE

You've heard about the program. And you know that you're ready for the experience of a lifetime!

**Follow these steps on your road to Spain.
Please note that the dates are tentative to give you a general idea.**

JANUARY - APRIL

Fill out and submit your application

The application period runs from late January to early April.

Please note that assignments are given on a first-come, first-served basis.

Applications can be frustrating. But if you've done your hw (reading the guidelines carefully and following the info they provide), it should go smoothly. Make sure you upload all the necessary docs and the checklist!

Submit your application! Phew!

JULY- AUGUST

You receive your letter of acceptance.

Letters of Acceptance are sent out. This document confirms your destination, your school assignment, and your health insurance, as well other important info. This letter is indispensable in securing your visa in the U.S. and later, once in Spain, your student residency card and Spanish Social Security Number.

When you get your letter, please contact your school. Note that most schools in Spain will be closed during most of August.

LATE FALL

Start doing your research

Not sure of which destination in Spain to choose for your adventure? Research the different parts of the country, divided into what we call **Comunidades Autónomas**. You will have to choose 3 for your application.

Carefully read the Application Guidelines and the How-to-Navigate-Profex handbook.

You can even start to fill out some sections of the application on Profex, such as your online resumé.

MAY- JUNE

You find out if you got into the program.

Acceptances into the program are sent out by email. Applicants must accept the offer within 5 days after receiving the email.

What's next? Wait for your Letter of Acceptance sent from the regional government in Spain where your school is located. Make sure you check your spam folder.

TIA for your patience!

NALCAP TIMELINE

Just a few more steps...

LATE JULY - SEPTEMBER

Apply for your visa

Follow the How to Apply for a Visa Handbook to get your long-stay student visa, as well as the information posted on our website from your regional Consulate General of Spain.

We strongly recommended not buying your plane ticket until you have your visa. Please note that student visas may take a few weeks to be issued.

SEPTEMBER

Time to go to Spain!

You leave for Spain **only after** your long-stay student visa is in your custody. **Do not** go to Spain before you get the visa.

You will probably attend an orientation session for the program organized by the regional government. Check with them or your school for the exact dates.

OCTOBER 1

NALCAP Program starts!

You are expected to report to your school. Good luck on your first day!

MAY 31

NALCAP Program ends in most of Spain.

You just had the experience of a lifetime with unforgettable memories and adventures in Spain!
